# Celebrate BIG Time!!

If we could take Madiba's 67 years of service, his 93 years of life experience and his attitude towards **doing what's right**, and spread this around, imagine how successful we would be? If we get anything from Madiba Month, it should be the same belief that the great man has himself:

**"We must use time wisely and forever realise that the time is always ripe to do right"**

We **celebrate** the years that we have had Madiba's Magic to guide us and pray for longevity of its influence on our nation.

I was honoured to attend the CEO Ladies' Breakfast yesterday with the Eastern Cape Merseta ladies, **celebrating the excellence of women** in South Africa. Dr Raymond Patel (CEO, MERSETA) was the keynote speaker. He began with the song, "Look in the mirror and make the change." He challenged all women to help everyone to make the change because we should not subscribe to any form of mediocrity. We need to **celebrate our skills** and power in business. He spoke of Nelson Mandela's visionary leadership and the fact that he was *and still is* a **servant leader**. Servant leaders are able to **serve their teams as well as lead them**. And women, especially, have this ability. All good leaders have a dream, a vision, and they energize the vision by inspiring and influencing people in addition to constantly developing people. There were many worthy recipients of prestigious awards. See <http://www.ceomag.co.za> for the list! So we must **celebrate the excellent women in South Africa** and the fact that **YOU assist** *massively* in the **development** of people!

And now we ask you to **join us in celebrating our**

## 20 YEARS IN BUSINESS!!

It is quite hard to believe how fast our involvement in Education and Training has passed. There are many tributes to the founders, the Mother and the team members of Triple E on our website and facebook, so we hope you join us in celebrating there. We are **truly celebrating this milestone** this month (you'll see soon enough!) because we are proud of the hard work, the team dynamics and the pure passion that has brought us to this part of our journey. And we have **ONLY** just begun!!! When I spoke to each of the founder members, the shareholders and the directors of Triple E Training Holdings (Pty) Ltd, the one word that came up always was the **passion** for what we do. This is not a word you can say you have not heard from us!! But it's genuine. We love what we do and we are passionate about the next twenty years! **Celebrate our achievement with us** and know that we are extremely grateful to you for being part of our journey

In celebration

Triple *now Twenty* E Training!

*Growth Through Development*
